Width	85mm

Features

- 6 different time periods (5 day plus 2 day or 7 day programming) displayed on an easy-view blue illuminated screen
- Auto mode: The light output will be controlled by the programmed times
- Photocell mode: The light output will only come on when the light level drops, if it is within a programmed times
- Random mode: On a random basis, it can change the ON/OFF times programmed by up to 30 minutes earlier, or later than programmed
- Manual mode: The light output is controlled by the Adv button, not the programmed times
- Automatic summer/winter time changeover
- Fits a standard flush or surface mount BS wall box min 25mm
- 2-wire no neutral required
- Internal battery powers the switches controls, therefore the lamps will not flicker when a minimum load is connected
