Watts Per Metre	14 W/m

LED Tape High Brightness 24V 5 metre is a flexible light source used as first lighting to illuminate coves, cabinets, shelves, glass panels and anything which does not have much available space. It is our highest brightness tape, making it ideal to use in situations that need a powerful light output.

Popular amongst residential and commercial applications alike, this 24V LED tape is the perfect solution to mood lighting in clubs, shops, pubs, restaurants, bars. Due to the tape lights flexibility, it is the perfect lighting solution to create a uniformed, even light around curved surfaces such as columns.

Warning

LED Tape High Brightness 100 24V Tape must be installed in an **Aluminium Extrusion** with a minimum depth of 12mm. With a maximum combined length of 5 metres. Once installed the tape must be accessible.
