Minimum Ceiling Depth	101mm (Standard LED), 133mm (Long LED)
Recessed Depth	20mm
Vertical Rotation	40°

Electrical

Maximum Wattage	50W
Voltage	240V

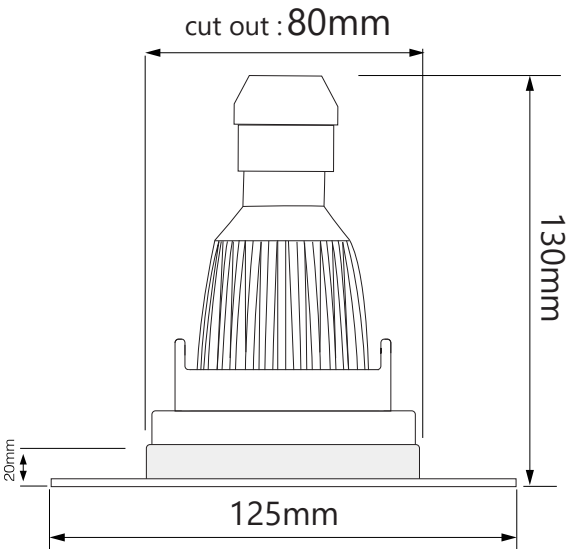

The **Trimless Downlight** is a fully adjustable downlight that is available in round or square, black or white. Using the different lampholders available you can select different light sources; Halogen, LED and Metal Halide. It is designed to be plastered into ceilings to give a **seamless** appearance. One of the advantages is that the downlight can be installed then plastered and painted.

Please note: the ceiling depth for this downlight depends on the lamp choice. For a Standard LED GU10 lamp the depth is 105mm. For an LED GU10 lamp a ceiling depth of 130mm should be allowed.
