FLICKER 204635

SES / E14 3W
Quicklink: Q285E

General

Cap	SES / E14
Construction	Metal / Plastic
Dimmable	No

Dimmable	No
----------	----

Dimensions

Diameter	26mm
Length	140mm

Electrical

Maximum Wattage	3W
Voltage	240V

The **Feelings Flame** lamp looks like a candle and is designed to give the flickering light effect of a candle's flame but without the heat, smoke and melted wax. The flame shaped lamp head sits on a weighted stem that has a pivot near its base. A mechanism within the lamp base causes the stem to move producing a rocking motion in the lamp head that emulates a flickering flame.

The candle cover fits most standard sockets (23.4mm diameter) and can easily be cut to the required length.
