## Wireless Intense Switches

Wise Switch 2 Channel

Polished Brass 3V

Polished Brass 3V Quicklink: Q28C7

General

Colour Polished Brass
Construction Steel / Plastic
IP Rating IP20

Operating

-10°C ~ +55°C

Temperature

Radio Frequency 868.3 MHz

**Dimensions** 

Depth 9mm Height 86mm Width 86mm

Electrical

Replacement BatteryCR2430

Voltage 3V

Wireless switches can be used to control any of the receivers in the Wise Controls range. The function of the switch, and each of its buttons, depends upon the function of the wireless receiver it is programmed to. Therefore a single button can be used for a variety of functions including, but not restricted to, on/off, on/off and dimming, or master off only.

Wise intense switches are surface mounted so can be positioned almost anywhere. They are battery powered and a CR2430 battery is included with each unit. The CR2430 Battery has a life span of 4-5 years.
