### General

|              |           |
|--------------|-----------|
| Cap          | G12       |
| Colour       | White     |
| Construction | Aluminium |
| Dimmable     | No        |
| IP Rating    | IP20      |

### Dimensions

|             |       |
|-------------|-------|
| Head Length | 165mm |
| Head Width  | 117mm |
| Height      | 267mm |

### Electrical

|                 |      |
|-----------------|------|
| Maximum Wattage | 70W  |
| Voltage         | 240V |

### Light Characteristics

|            |     |
|------------|-----|
| Beam Angle | 40° |
|------------|-----|

The **Tube Three Circuit Track Lights Range** fittings are 240V spotlights used to highlight certain focal points using different wattages, brightness and beam angles.

The fittings are positioned onto the surface or recessed three circuit track lighting system which can be mounted onto practically any surface. This allows you to move and change your light fittings around when you need to, without having to make any long term installations.

Three-circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.
