Niglon 15A 12-Way Nylon PA Terminal Strip Connector (NYN15) is a high-quality, 12-way terminal strip designed to provide a safe and reliable solution for insulating and protecting electrical connections. Manufactured from premium, flame-retardant Nylon-PA material, it features a superior ambient temperature rating of T85 to T110, ensuring stability under demanding thermal conditions.

Equipped with heavy-duty steel inserts and zinc-plated steel screw terminals, this 15 Amp connector accommodates wiring capacities from 2.5mm² to 10mm². Fully compliant with BS EN60998-1 and UL94-V0 safety standards, the strip can easily be cut down into individual poles to suit your specific installation need
