

BS15

Brown PA66 Nylon

Quicklink: Q2FAC

General

Colour	Brown
Construction	Plastic

Dimensions

Depth	20mm
Height	12mm
Width	7.5mm

The Niglon **BS15** is a premium 12-way terminal block strip designed for demanding electrical applications requiring exceptional thermal resilience.

Molded from self-extinguishing PA66 Nylon, this heavy-duty strip features an outstanding ambient temperature rating of up to T150. It safely handles a rated current of 15A at 450V and accommodates a flexible cable capacity ranging from 2.5mm² to 10mm² via secure 3.4mm screw terminal connections. Fully certified to CE standards and compliant with BS EN60998-1 and UL94-V0 fire safety requirements, the BS15 provides ultimate protection and insulation for high-heat environments
