The **Rock 'n' Roll 50 RGB** is an adjustable downlighter with a plug and play 46° RGB LED Worm. This downlight benefits from an integrated black baffle that recesses the light source further into the downlight, absorbing light at wide angles to eliminate glare whilst also maintaining full light output. The inner ring can tilt to a maximum of 35° for precise beam placement.

A Chameleon Master 350mA 21W pack can operate a maximum of five 4W downlights. If more downlights are required a Chameleon Slave pack can be added which can also control a maximum of five 4W downlights. An unlimited number of 21W Chameleon Slave 350mA 21W packs can be used with a Chameleon Master 350mA 21W pack.

Wireless Switches and Remotes

A 7 button wireless wall switch or remote is needed to control the LEDs. Using either the wall switch or remote allows the user to:

- Select one of the 8 preset colours (Red, Green, Blue, Orange, Cyan, Magenta, Yellow)
 - Start a smooth colour cycle
 - Reverse the colour cycle
 - Choose between 3 different colour cycle speeds
 - Pause on one of the 1000 different shades of colours available
 - Re-program the 8 preset colours with 8 colours of your own choice
-
