Invisible Tilt Round Downlight RGB Master 1
4W White

MR. RESISTOR®
Lighting Specialist Est. 1968

INVISR MAS1 RGB

4W White

Quicklink: Q305D

General

Colour	White
Construction	Die-Cast Aluminium
IP Rating	IP00

Controller Input	24V
Controller Output	350mA
Driver Input	240V
Driver Output	24V

Dimensions

Cut Out	67mm (Diameter)
Diameter	90mm
Minimum Ceiling Depth	85mm
Vertical Rotation	40°

Electrical

Amperage	350mA
Maximum Wattage	4W

The **Invisible Tilt Round RGB Master 1** contains all the necessary components to achieve colour change LED lighting.

A Chameleon Master 350mA 21W pack can operate a maximum of five 4W downlights. If more downlights are required a Chameleon Slave pack can be added which can also control a maximum of five 4W downlights. An unlimited number of Chameleon Slave 350mA 21W packs can be used with a Chameleon Master 350mA 21W pack.

Wireless Switches and Remotes

A 7 button remote is included to control the LEDs. The remote allows the user to:

- Select one of the 8 preset colours (Red, Green, Blue, Orange, Cyan, Magenta, Yellow)
- Start a smooth colour cycle
- Reverse the colour cycle
- Choose between 3 different colour cycle speeds
- Pause on one of the 1000 different shades of colours available
- Re-program the 8 preset colours with 8 colours of your own choice

The Invisible range has been **designed to be overpainted in Situ** in the ceiling if necessary. The fitting is painted RAL9010 - 30% Gloss level which has a slightly matt surface, to which the emulsion or other paints will adhere to. The finish from the factory is good enough for normal use and will blend in with the most common ceiling finishes. The slightly matt finish on the product will allow it to be carefully repainted to suit any other ceiling colours.
