

# Invisible Square

Invisible Tilt Square RGB

4W White

## INVISS RGB

4W White

Quicklink: Q3071

### General

Colour	White
Construction	Die-Cast Aluminium
IP Rating	IP00

Controller Input	24V
Controller Output	350mA
Driver Input	240V
Driver Output	24V

### Dimensions

Cut Out	67mm (Diameter)
Length	90mm
Minimum Ceiling Depth	85mm
Vertical Rotation	40°
Width	90mm

### Electrical

Amperage	350mA
Maximum Wattage	4W

The **Invisible Tilt Square RGB** is an adjustable downlighter with a plug and play 46° RGB LED Worm.

The Invisible Tilt Square is an adjustable downlight designed to blend seamlessly into its surroundings. It has an unobtrusive one millimetre plate that sits practically flush to the ceiling when fitted and contains a baffle that recesses the lamp to reduce glare. The baffle is also hinged to allow the light source to be directed through a 40 degree arc from the vertical.

A Chameleon Master 350mA 21W pack can operate a maximum of five 4W downlights. If more downlights are required a Chameleon Slave pack can be added which can also control a maximum of five 4W downlights. An unlimited number of Chameleon Slave 350mA 21W packs can be used with a Chameleon Master 350mA 21W pack.

### Wireless Switches and Remotes

A 7 button wireless wall switch or remote is needed to control the LEDs. Using either the wall switch or remote allows the user to:

- Select one of the 8 preset colours (Red, Green, Blue, Orange, Cyan, Magenta, Yellow)
- Start a smooth colour cycle
- Reverse the colour cycle
- Choose between 3 different colour cycle speeds
- Pause on one of the 1000 different shades of colours available
- Re-program the 8 preset colours with 8 colours of your own choice

The Invisible range has been **designed to be overpainted in Situ** in the ceiling if necessary. The fitting is painted RAL9010 - 30% Gloss level which has a slightly matt surface, to which the emulsion or other paints will adhere to. The finish from the factory is good enough for normal use and will blend in with the most common ceiling finishes. The slightly matt finish on the product will allow it to be carefully repainted to suit any other ceiling colours.
