Quicklink: Q310A

The **117mm Energy Saving Linear Halogen Lamp** is at least 30% more energy efficient than standard linear halogen lamps. It has a 160W load which is equivalent to an output of 200W. This lamp is also dimmable.

Due to the heat this lamp gives off there should be at least one meter clearance between it and the nearest object and time should be allowed for it to cool down before removal.

When installing the lamp should not be touched by hand
