

Dali LED Drivers

Optotronic Oti Dali Dimmable Driver (Constant Voltage) 240V/24V
75W 24V/240V

DC OTIDALI 75/24

75W 24V/240V
Quicklink: Q3176

General

Colour	White
Construction	Plastic
Dimmable	Yes
IP Rating	IP20

Dimmable	Yes
Operating Temperature	75°C

Dimensions

Depth	45mm
Height	45mm
Width	220mm

Electrical

Mains Frequency	50/60 Hz
Maximum Wattage	75W
Transformer	Electronic
Voltage	24V

The **Optotronic Oti Dali** is a Dali converter, LED driver whose output power can be shared arbitrarily among the 2 or 4 channels. Dimmable via Touch DIM (if supported)

Product Benefits

- Flexible addressing via DALI

Areas of application

- For luminaires of protection classes I and II
- Suitable for separate mounting
- Suitable for indoor applications

Product Features

- 4 channel DALI converter
 - Dimming range: 0-100 % luminous flux
 - Suitable for 24 V LED modules
 - One DALI input for up to four addressable output channels
 - 75 W output can be freely distributed among up to 4x24 V PWM output channels
-
