

# Nose Three Circuit Track Lights

Long Nose Three Circuit Track Spotlight 240V  
50W White

## TK3LN1001

50W White  
Quicklink: Q323C

### General

Cap	GU10
Colour	White
Construction	Plastic
Dimmable	Yes
IP Rating	IP20

### Dimensions

Head Diameter	65mm
Head Length	105mm

### Electrical

Maximum Wattage	50W
Voltage	240V

The **Long Nose Spotlight** is a three circuit track mounted spotlight used for general lighting. It has a longer body than standard GU10 spotlights, meaning that elongated bulbs such as LED retrofit lamps can be used without the light source protruding.

Three circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.
