This type of **Electronic Dimmer** is exclusively designed for dimming 12V/24V/60V LED lamps. With Pulse Width Modulators (PWM) technology, it is suitable for constant voltage (12V/24V/60V) lamps connected in parallel. It has short circuit protection, current protection and input polarity reverse protection.

Please purchase the correct power supply rated for the connected load. A selection of power supplies are linked on the right.
