The **RGB LED Module** is a dimmable colour changing LED lamp that fits most 50mm downlights.

The **RGB LED Module** is a 700mA plug and play LED colour changing module with a total output of 9 watts that is available with a 45° lens.

It has its own dedicated plug and play power cords, end cap and couplers for easy installation and wiring.

Please note: Red green and blue emits a pure colour. When the colours are mixed each colour can be visible displaying a rainbow effect.
