

Data Cable
LAN CAT6 UTP Cable
1m Violet

The **CAT6 UTP Cable** is a 4-pair cable that is the new standard in networking, Category 6. Designed for use with high speed networks and fully capable of supporting Gigabit networks. It is also fully backwardly compatible with Cat 5e and Cat 5. This cable uses solid strand cores and is suitable for structured cable installation.

Please Note: Once cable is cut cannot be returned.
