---------	-----

**Bare Wire Cable 6mm** is sold in 1m lengths and is also available on a 100m reel. When using Bare Cable a double fused transformer must be used. 6mm cable can be used in longer runs up to 10m.

A solid core cable must be used to connect power from the *Wire Transformer* to the *Wire Tensioner* or *Wire Floating Live End*, this *Bare Wire Cable* must not be used for this purpose.

For further detail on connecting all cables to the *Wire Tensioners*, please see the technical tab.
