The Piani is a unique and stylish table lamp that combines function and design. The lamp features two overlaying flat elements, with the upper arm providing direct light and the lower base serving as a handy tray. The tray is perfect for holding small items such as your phone or keys.

The Piani is powered by a 5W LED which provides bright and energy-efficient lighting. The lamp body is made of injection-printed ABS and features a dissipater in polished pressofused aluminium. The diffuser is made of injection-printed optical PMMA, which helps to evenly distribute the light and create a warm and inviting atmosphere.

The power cable is 1600mm in length and comes with a switch that allows you to easily turn the lamp on and off. The lamp is easy to use and its design will match any room décor. This lamp is perfect for those who are looking for a functional and designer table lamp for their home or office.
