

The **DC Jolly Coupler Data Cable** is used in conjunction with the DC Jolly range of drivers. It links the DCC Dali interface with any DC Jolly driver to allow conversion of DALI signals into PWM Signals.

**Please Note:** Once cable is cut cannot be returned.

## DCJOLLY COUPLER

1.5m Grey  
Quicklink: Q34DC

### General

Colour      Grey

### Dimensions

Diameter    4mm  
Length       1500mm
