

# Recessed Sensors

IR Door Detection Sensor Switch  
Black 250W

---

## FLS-D HO/DUAL

Black 250W  
Quicklink: Q3529

---

An **IR Door Detection Sensor Switch** with a 2m Lead. It can be used to switch both mains and low voltage lighting.

**Please note:** The IR-sensor controller senses door movement in front of the sensor eye (5cm-10cm) for on and off switching. This sensor is for one way operation only.

### General

Colour                Black  
Construction        Plastic

### Dimensions

Cable Length        2m  
Cut Out                13mm (Diameter)  
Depth                 13mm  
Diameter             17mm

### Electrical

Maximum Wattage   250W  
Voltage                240V
