Quicklink: Q3577

General

Construction Plastic
IP Rating IP20

Radio Frequency 868.3 MHz
Range for Metal Switch 50m Max Line Of Sight
Range for Plastic Switch 100m Max Line Of Sight

Dimensions

Height 35mm
Length 165mm
Width 47mm

Electrical

Input Voltage 12V/24V
Maximum Wattage 300W
Minimum Wattage 1W

The Wise SyncroLED RGB Master offers the same capability as your standard Chameleon yet with less wiring needed for it. The master receives the signal from the transmitter and then passes the signal on to the slave wirelessly without the need for cables between the master and slaves. Each pack only requires to be wired to a power supply

Caution: The warm white produced by RGB products is not the same as the warm white produced by single coloured products. By mixing the colours to create warm white a hint of Red, Green, or Blue may appear.
