## WISESYNCRGB 300S

12V/24V 300W  
Quicklink: Q3578

### General

Construction Plastic  
IP Rating IP20

Radio Frequency 868.3 MHz  
Range for Metal Switch 50m Max Line Of Sight  
Range for Plastic Switch 100m Max Line Of Sight

### Dimensions

Height 35mm  
Length 165mm  
Width 47mm

### Electrical

Input Voltage 12V/24V  
Maximum Wattage 300W  
Minimum Wattage 1W

The **Wise SyncroLED RGB Slave** offers the same capability as your standard Chameleon yet with less wiring needed for it. The master receives the signal from the transmitter and then passes the signal on to the slave wirelessly without the need for cables between the master and slaves. Each pack only requires to be wired to a power supply

**Caution:** The warm white produced by RGB products is not the same as the warm white produced by single coloured products. By mixing the colours to create warm white a hint of Red, Green, or Blue may appear.
