Lighting Specialist Est. 1968

## WISESYNCRGB 21S

350mA 21W  
Quicklink: Q357A

### General

Construction	Plastic
IP Rating	IP20

Radio Frequency	868.3 MHz
Range for Metal Switch	50m Max Line Of Sight
Range for Plastic Switch	100m Max Line Of Sight

### Dimensions

Height	35mm
Length	165mm
Width	47mm

### Electrical

Amperage	350mA
Input Voltage	24V DC
Maximum Wattage	21W
Minimum Wattage	1W

The **Wise SyncroLED RGB Slave** offers the same capability as your standard Chameleon yet with less wiring needed for it. The master receives the signal from the transmitter and then passes the signal on to the slave wirelessly without the need for cables between the master and slaves. Each pack only requires to be wired to a power supply

**Caution:** The warm white produced by RGB products is not the same as the warm white produced by single coloured products. By mixing the colours to create warm white a hint of Red, Green, or Blue may appear.
