The **Airplane** is a classic ceiling fan that is perfect for use in the home, office or as a shop fitting. Includes reversible switch for summer and winter operation.

The ceiling fan body and blades have a silver finish. Simply hard wire to a *Ceiling Fan Wall Control Switch* or alternatively purchase a *Radio Frequency Remote Control* for wireless operation. Both methods have four fan speed and on/off settings. A switch is located on the base of the fan to reverse the spin of the blades, cooling rooms in the Summer and trapping heat in the Winter.

*Down Rods* should be purchased if this product is to be located in a conservatory or high ceiling room.

Please see the technical tab for information on selecting the correct fan size, down rods and installation advice. All fan motors carry a ten year guarantee.
