| Voltage | 240V |

The **Tolomeo Micro** is a stylish table lamp with a cantilevered structure. Featuring a fully rotational diffuser in matt anodised aluminium, joints and supports in polished aluminium. Ideal for desks, bedside tables or small side tables where extra lighting is required.

The Tolomeo Micro is 40% smaller than the classic Tolomeo lamp. Designed by Michele De Lucchi and Giancarlo Fassina its weighted base ensures stability and aids the ease of movement of its two articulated arms. This lamp has been built with function in mind as its diffuser can be tilted and rotated 360 degrees. Takes a maximum 40W, E14 SES lamp.
