The **Maxi 100 Double** is an adjustable surface mounted double spotlight for use with R80 reflectors.

The Maxi Spotlight range is a practical and versatile surface-mounted lighting solution, available in both double and triple configurations. Featuring fully adjustable spotlight heads, it allows you to direct light exactly where it is needed, making it ideal for kitchens, living rooms, hallways, retail displays, and commercial spaces.

Constructed from durable pressed steel with a sleek black finish, the Maxi Spotlight combines functional task lighting with a contemporary industrial aesthetic. Designed for use with reflector lamps, it provides targeted illumination while its surface-mounted design offers a simple installation solution where recessed lighting is not suitable.
