The **LED Panel Driver** is a 24V driver for use with the LED Panel range of ceiling lights. The LED Panel driver has an input voltage of 24V and an output current of 700mA.

The **LED Panel** range features the latest in LED technology. The panels are suitable for commercial and domestic applications, and are designed to fit directly into existing standard suspended ceilings and recesses, or can be suspended (fixings available separately). These panels are ideally suited for office lighting and for meeting rooms and corridors.
