

GIP ENDCAP SQR

Grey Square
Quicklink: Q3A34

General

Construction Plastic

Dimensions

Depth 11mm
Length 26mm
Width 25mm

The **Gip Surface Endcap** is used in conjunction with the *Gip Surface Extrusions*.

Its purpose is to seal up the furthest end of the extrusion to ensure small objects such as dust cannot enter the fitting to interfere with the electrical components inside.

Only 1 endcap is required for each circuit of Tapelight. This means that if you buy 2 x 2m of extrusion, you would only need an endcap on the final piece.
