

Nose Single Circuit Track Lights

Big Nose Single Circuit Track Light PAR20 240V
60W Black

TKBN604

60W Black
Quicklink: Q3A8D

General

Cap	ES / E27
Colour	Black
Construction	Pressed Steel / Polycarbonate
Dimmable	Yes
IP Rating	IP00

Dimensions

Arm Length	50mm
Head Diameter	80mm
Head Length	125mm

Electrical

Maximum Wattage	60W
Voltage	240V

The **Big Nose Track** single circuit track mounted spotlight used in conjunction with our single circuit 240V track ceiling fixtures. It has a longer body than standard spotlights, meaning that elongated bulbs such as LED retrofit lamps can be used without the light source protruding.

A Single Circuit Track is a type of lighting system used in various environments, including commercial and residential spaces. It features a track containing a single conductive pathway, or circuit. In this setup, all the light fixtures connected to the track are controlled simultaneously. This simplicity can be advantageous for applications where uniform lighting is desired across a space.
