

Touch Panel Remotes

CCT Adjustable Touch Panel Remote & Receiver 24V
2 x 6A

LEDP CCT REMOTE

2 x 6A
Quicklink: Q3AFE

General

Colour Stainless Steel,White
Construction Plastic

Dimensions

Depth 18mm
Length 115mm
Width 55mm

Electrical

Maximum Wattage 288W
Voltage 24V

The LED CCT Adjustable Panel Remote is a touch colour temperature adjustable remote. When used with the CCT LED Panel the colour temperature can be adjusted from 2500K-7000K. It adopts a high precision touch control chip that increases touch sensitivity.

Two AAA batteries are required to operate the remote available separately.

This switch cannot be connected directly to the mains. The unit must be powered by either a 12V or 24V constant voltage LED driver.

Key Features

- Output control: Two circuits
 - Connection mode: Common anode
 - Receiving range: 20m
 - Control current: 6A/circuit
-
