The **Trimless LED Downlight** is a fixed White IP55 rated downlight with a **7W GU10 LED Lamp**. It is designed to be plastered into ceilings to give a **seamless** appearance. One of the advantages is that the downlight can be installed then plastered and painted.

A suction cup is included with this fitting for easy lamp changing. The **Reality GU10 LED 7W** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The GU10 Reality Lamp is equivalent to a 75W GU10 halogen lamp and, like a halogen lamp, is dimmable. It lasts for 25,000 hours and consumes just 7W.

Key Features

- Replicates halogen reflector
- LED positioned further back for anti glare
