Spindle Length	20mm

Dimensions

Depth	30mm
Length	60mm
Width	25mm

Electrical

Maximum Wattage	250W
Minimum Wattage	5W
Voltage	240V

The **Rotary and Push LED dimmer module** is compatible with many dimmable LED lamps and fittings. They are ideal to retrofit onto many existing wall plates or can be fitted onto Original Equipment Manufacturers own plates. Complete with a Push On / Push Off facility and rotary dimming control, can be used in 1-way or 2-way switching circuits and fitted with a thermal fuse for short circuit protection.

To eliminate lamp instability, the product is fitted with an adjustable spindle to the back to specify the minimum dim level.
