Width 127mm

The **Extrusion T5** extrusion is constructed from high strength plaster. It is used for indirect recessed lighting. This extrusion is made up of five parts, left ended section, right ended section, 2 x middle section and 2 x frosted diffuser. This extrusion requires 2 x 21W T5 fluorescent fittings, slimLine direct coupler and a seamless dimLine power lead.

Please note: Diffuser comes in standard 1500mm strip, and may be required to be cut to required size.
