Quicklink: Q3BA4

The **Extrusion T5** extrusion is constructed from high strength plaster. It is used for indirect recessed lighting. This extrusion is made up of three parts, left ended section, right ended section and a full length frosted diffuser. This extrusion includes a cool white 21W T5 fluorescent fittings and a seamless dimLine power lead.

Please note: Diffuser comes in standard 1500mm strip, and may be required to be cut to required size.
