

## LIPOD END CAP

Grey Square  
Quicklink: Q3BE5

### General

Construction Plastic

### Dimensions

Length 25mm

Width 26mm

The **Lipod Surface Endcap** is used in conjunction with the *Lipod Surface Extrusions*.

Its purpose is to seal up the furthest end of the extrusion to ensure small objects such as dust cannot enter the fitting to interfere with the electrical components inside.

Only 1 endcap is required for each circuit of Tapelight. This means that if you buy 2 x 2m of extrusion, you would only need an endcap on the final piece.
