Colour Temperature 2700K Warm White

The Goya LED 760mm picture light is a sleek and stylish lighting solution for illuminating pictures, mirrors, and other wall-mounted décor. The light features an adjustable knuckle on the base and on the light tube itself, allowing you to easily angle the light to perfectly illuminate your art or décor.

Constructed from durable steel, the Goya is built to provide long-lasting performance. This light is not dimmable and it is mains switching only, perfect for creating a focused, spotlight effect to highlight your favourite pictures and mirrors.
