The **Catena** adjustable magnifying mirror light is ideal as a separate mirror in any bathroom for applying make-up or shaving due to the five times magnification. A 22W fluorescent lamp is incorporated into the fitting, which not only removes shadows for better clarity, but also meets the requirements of Part L building regulations on the conservation of power.

This fitting is IP44 rated, allowing for location in bathroom zone 2. Constructed from steel and glass with one adjustable arm. It is fully adjustable with a swing arm and pivoting head. An integral electronic ballast is built in. This fitting is not dimming compatible and is mains switching only. A 22W T5 fluorescent lamp is available separately.
