

# Line U LED Extrusion Profile - Floor

Line U Outdoor Recessed Floor LED Tape Extrusion Profile  
2070mm Aluminium

## LINE U ALU 2.07M

2070mm Aluminium  
Quicklink: Q3D7A

### General

Colour	Aluminium
Construction	Aluminium

### Dimensions

Depth	26mm
Length	2070mm
Minimum Floor Depth	26mm
Width	26mm

The **Line U Recessed Extrusion Profile** comes in different lengths and is used to house our LED tape, which keeps the LED tape safe and out of the way.

For Exterior Use - mounting to different types of pavements, floor, outdoor grounds, sidewalk surfaces, bike lanes, parking lots etc. (designed to meet IP67 waterproof level)

- Designed to obtain an IP67 waterproof rating
- Designed to reach IK10 degree of protection against mechanical impact
- Resistant to pedestrian and road traffic

### Parts Required

#### Extrusions

As many lengths of extrusion can be used as is desired. Any piece can be positioned end to end with each other to make an unlimited distance.

#### Endcap

An Endcap is required for each circuit of extrusions being used. It is positioned on the end of the very last extrusion in the circuit and is used to stop dust from and moisture from interfering with the electrical components.

#### Powerend

An Powerend is required for each circuit of extrusions being used. It is positioned on the very first extrusion in the circuit and serves the same purpose as the Endcap. The powerend has a hole in the centre which allows a cable to be fed through to power the strips.

#### Diffuser

A diffuser is used to give the light a more even blend. Simply purchase the same amount of diffusers as you did with extrusions.

Will fit any tape with a maximum width of 10mm.
