The **Tatou T1 Table Lamp range** is a contemporary collection of table top fittings designed by the renowned designer Patricia Urquiola. These lamps offer diffused light that is both soft and warm, making them the perfect choice for a variety of settings, including living rooms, bedrooms, and offices.

The exterior diffuser is made of polycarbonate, a strong and durable material that provides a sleek and modern look. The internal diffuser is made of injection-printed opal polycarbonate, which provides a soft, warm light that is evenly distributed throughout the room. The combination of these materials creates a lamp that is both functional and visually appealing.

The support and base of the Tatou T1 Table Lamp are made of painted steel, which gives the lamp a sturdy and stable base. This makes it an ideal choice for use on a table or desk, providing both practical lighting and a stylish and contemporary touch to your interior spaces.

Whether you're looking to add a touch of sophistication to your home or you're seeking a high-quality lighting solution for your office or commercial space, the Tatou T1 Table Lamp range is the perfect choice. With its beautiful design, high-quality materials, and warm, diffused light, these lamps are sure to impress.
