The **Tab Table Lamp** is a sleek and modern addition to any table top, designed by the renowned designers E. Barber & J. Osgerby for FLOS.

The body of the lamp is crafted from painted press fused aluminium, offering a sturdy and long-lasting design. The multi-LED diffuser is expertly crafted from PMMA material to ensure an even distribution of light, while also avoiding any multi-shadow or dazzling effects. The lamp's head is also rotatable by up to 45°, making it a versatile and flexible lighting solution for any room.
