Minimum Ceiling Depth	105mm

Electrical

Energy Efficiency Rating	A
Maximum Wattage	5W
Voltage	240V

Light Characteristics

Beam Angle	60°
Colour Rendering Index	80
Colour Temperature	3000K Warm White
Halogen Equivalent Wattage	50W
Lumens	500 lm
Lumens Per Watt	100 lm/W

Page 1 of 2

The **Trimless Fire Rated Downlight** is adjustable and designed to be plastered into ceilings to give a seamless appearance.

The Trimless Fire Rated Downlight does not require a firehood and is fire rated for up to 90 minutes.

The advantage of our Trimless Fire Rated Downlight is the can is not enclosed, so it can fit any height lamp and smaller ceiling depths.

The **Reality GU10 LED 6W Retro** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The GU10 Reality Lamp is equivalent to a 50W GU10 halogen lamp and, like a halogen lamp, is dimmable.

Key Features

- Replicates halogen reflector
- LED positioned further back for anti glare
- Complies with October 2010 Part L regulations
- Fully dimmable with leading edge dimmers
- Equivalent to 50W GU10
- Fits GU10 lampholder
- Emergency option available

The Trimless Downlight does not require a fire hood and is fire rated for up to 90 minutes.
