Operating Temperature 3000K Warm White

The **Trimless Fire Rated Downlight** is adjustable and designed to be plastered into ceilings to give a seamless appearance.

The Trimless Fire Rated Downlight does not require a firehood and is fire rated for up to 90 minutes.

**The advantage of our Trimless Fire Rated Downlight is the can is not enclosed, so it can fit any height lamp and smaller ceiling depths.**

The **Reality GU10 LED 6W Retro** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The GU10 Reality Lamp is equivalent to a 50W GU10 halogen lamp and, like a halogen lamp, is dimmable.

### Key Features

- Replicates halogen reflector
- LED positioned further back for anti glare
- Complies with October 2010 Part L regulations
- Fully dimmable with leading edge dimmers
- Equivalent to 50W GU10
- Fits GU10 lampholder
- Emergency option available

The Trimless Downlight does not require a fire hood and is fire rated for up to 90 minutes.
