The **Contract 35 LED** is a fixed 35mm GU11 downlight with a **Reality GU10 LED 4W LED**. The contract range of downlights do not have a visible lamp retainer.

The **Reality GU11 LED 4W** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The Reality GU11 4W Lamp is equivalent to a 35W GU11 halogen lamp and, like a halogen lamp, is dimmable.

### Key Features

- Replicates halogen reflector
- LED positioned further back for anti glare
- Fully dimmable with leading edge dimmers
- Equivalent to 35W GU10
- Fits GU10 lampholder
- Emergency option available
