Vertical Rotation	40°
Width	72mm

Electrical

Maximum Wattage	150W (3 x 50W)
Voltage	240V

The **trimless triple square adjustable downlight** is a fully adjustable downlight that is available in black or white. Select different light sources; Halogen, LED for the GU10 fitting. It is designed to be plastered into ceilings to give a **seamless** appearance. One of the advantages is that the downlight can be installed then plastered and painted.

Please note: the ceiling depth for this downlight depends on the lamp choice. For a standard halogen GU10 lamp the depth is 90mm. For an LED GU10 lamp a ceiling depth of 130mm should be allowed.
