

Globe

Globe Post
1800mm

ART160180

1800mm

Quicklink: Q661

General

Colour	Black
Construction	Thermoplastic

Dimensions

Diameter	60mm
Length	1800mm

The **Globe Post** connects the Globe fitting to the Globe Base in order to turn it into a full post fitting. The post comes in three different lengths to give a choice of post height.

If no post height is required and you wish to mount the Globe on to the Globe Base then a connecting piece of Globe Post must be purchased in order to fit the items together. The 200mm and 250mm Globes require an 80mm length and the 300mm Globe needs a 95mm length.
