The LED 3 Circuit Track Floodlight is a high-output, adjustable LED spotlight designed for shop and office lighting. Delivering powerful, high-brightness illumination, it is ideal for enhancing product displays, improving workspace visibility, and creating a clean, vibrant lighting environment.

Built with a robust aluminium housing and an IP65 rating, this durable fitting offers long-lasting performance in demanding indoor settings. Its intense light output ensures excellent clarity and coverage, making it perfect for areas that require strong, focused illumination. Please note, this fitting is not dimmable.

The 3-circuit track system provides maximum flexibility, allowing each circuit to be controlled independently. This enables you to create multiple lighting zones on a single track, giving you full control over your lighting layout.

The included RF remote offers effortless control with a range of up to 25 metres and does not require direct line of sight, making colour changes quick and convenient.

This fitting is not mains dimmable. It can be 25%, 50%, and 75% dimmed via the RF Remote
