LED PAR25 10W INT

10W (=75W) 2700K Warm White
Quicklink: Q4086

General

Cap	ES / E27
Construction	Plastic
Dimmable	Yes

Dimmable	Yes
----------	-----

Dimensions

Diameter	80mm
Length	100mm

Electrical

Energy Efficiency Rating	A
Maximum Wattage	10W
Voltage	240V

Light Characteristics

Beam Angle	36°
Colour Rendering Index	85
Colour Temperature	2700K Warm White
Lumens	580 lm
Lumens Per Watt	58 lm/W

The **LED PAR25** is designed as a direct retrofit replacement for halogen PAR25 lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents (75W) but is up to 87% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.
