

# Dali LED Drivers

Oti Dali Dimmable Driver (Constant Voltage) 240V/24V  
24/240V

---

## DC OTIDALI 1-10

24/240V

Quicklink: Q40AA

---

### General

Colour White  
Dimmable Yes

Dimmable Yes  
Operating Temperature 75°C

### Dimensions

Depth 30mm  
Height 30mm  
Width 190mm

### Electrical

Mains Frequency 50/60 Hz  
Transformer Electronic

DALI converter CON 1 - 10V LI is a multifunctional unit. On the one hand it is a converter which is accessed digitally via the DALI interface in the same way as a DALI ECG, and on the other hand it is a lighting controller in its own right. With its control output (combined interface 1-10V/0-10V) and load contact, ECG and electronic transformers can be dimmed and switched via 1-10V and dimmers via 0-10V.

- Load capacity of the signal output: max. 100 mA
  - 0...10 V max. 5 mA active
  - Switchable characteristic: linear/logarithmic
  - Load capacity of switching contact: 5 A
  - Touch DIM control of 1...10 V ECGs
-
