The **Dimmable Reality AR111 LED 13W and driver** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The AR111 Reality Lamp is equivalent to a 75W GU10 halogen lamp and, like a halogen lamp, is dimmable.
